

Important Notice for Broker/Dealers

First Investors Long Short Fund

First Investors Long Short Fund, the newest equity investment addition to our Family of Funds, will be available for purchase effective on or about December 1, 2016. The fund's investment objective is capital appreciation. The Fund will utilize a long/short equity investment strategy, giving fund managers the ability to short stocks, sectors, or the market itself. This strategy can help investors who need to generate long-term returns, but who don't have the risk tolerance to remain invested when volatility spikes.

Foresters Investment Management Company is the Fund's investment adviser and Lazard Asset Management LLC serves as subadvisor to the Fund.
